

# iPartner Catalog Express

Coperon Technologies launches the first Software-as-a-Service (SaaS) for lighting manufacturers and distributors. **iPartner Catalog Express** is an Internet hosted version of **iPartner Products Suite**, the complete software solution for the management of electronic lighting catalogs and product databases.

Software-as-a-Service is the antidote for IT headaches associated with the traditional software model. With no software or hardware to buy, install, maintain, or upgrade, **iPartner Catalog Express** eliminates work for you and your IT provider, empowering your business users with easy-to-use tools.

## iPartner Catalog Express advantages

- **Instant Time to Value:** iPartner Catalog Express minimizes the risk involved in implementing online catalog management tools and is fast because you'll benefit from already pre-configured industry standards and tools. Enter your data and you will see immediately your catalog online! Guaranteed a much reduced total cost of ownership compared to installed software!
- **Less Expense now** and in the long run! You have no hardware, software licenses, or consultants and staff to manage. We provide you with the platform and regular maintenance and upgrades.
- **Easy Upgrades.** You will benefit instantly from any new version of iPartner Products suite so that you can take immediate advantage of the new features and innovations available with each release.
- **Better Service Delivery.** Our experience in servicing a number of leading lighting manufacturers worldwide guarantees higher service levels than you can achieve on your own. We use leading edge technologies, policies, and procedures to ensure security at the data center, application, and network levels; to ensure maximum uptime and continuous availability.
- **More Satisfaction and Productivity.** iPartner Catalog Express ease of use results in a higher user adoption of your digital tools. This leads to productive users that will keep your online catalog up-to-date with the latest information and products.
- **Independence.** iPartner Catalog Express allows you maintain your company unique data structure and image, therefore freeing you from constraints and delays imposed by other providers of e-catalogs such as lighting software developers or web agencies. Your users can customize in minutes, without programming, the user interface and underlying data objects easily!
