

JUNIOR GRAPHIC DESIGNER

Coperon Technologies builds solid digital brand presence that meet business goals by combining creativity and innovative tools and technologies.

Job description

- Design visual and multimedia content for Social Media, Websites, Newsletters and other visual assets when required
- Listen to design needs, prepare compelling visual concepts, and communicate them to clients and other members of the team
- Study design briefs and coordinate with the team to determine requirements
- Coordinate with the marketing team to ensure deadlines are met
- Implement strong visuals while still maintaining brand identity and consistency throughout different digital platforms
- Be well-aware of current design trends and tools
- Be knowledgeable of the fundamental design guidelines
- Assist in the strategy and community management of social media channels
- Be up to date with social media trends and tactics as well as new formats and features that the platforms offer

Desired skills and experience:

- Degree or currently studying Design, Fine Arts, or related field
- Work Experience: 1 to 2 years
- Portfolio of previous work
- Proficient in design software and technologies (Adobe Photoshop, Adobe Illustrator, After Effect, Premiere Pro, or other)

Personal qualities:

- Consistent eye for quality and attention to detail
- Ability to work independently and as part of a team
- Strong aesthetic skills
- Strong organizational and planning skills
- Dynamic and highly motivated with a can-do attitude

Languages:

- Fluent English is required
- Other European language is a plus

IMPORTANT NOTICE: This vacant position is strictly for Lebanese applicants
