

JR SOFTWARE DEVELOPER (.NET / Next.js)

Job Description

The Junior Software Developer will assist in the development, maintenance, and evolution of Coperon's product suite.

The role involves working on both existing and new systems, participating in the implementation of client projects, and collaborating with backend and frontend teams to deliver reliable and maintainable solutions.

The candidate will also be responsible for producing clear technical documentation in English for analysis, development, and maintenance activities.

Required Skills & Experience

Education

- BS or MS in Computer Science or a related field

Experience

- 1 to 2 years of experience in software development

Technical Skills

Backend (.NET & Microsoft Stack)

- Experience with **.NET Framework (legacy systems)** and **modern .NET (.NET 6 / .NET 7 / .NET 8)**
- Familiarity with **ASP.NET / ASP.NET MVC / Web API**
- Experience working with **Microsoft SQL Server**
- Basic experience hosting and running applications on **IIS**

Frontend

- Good knowledge of **HTML, CSS, and JavaScript**
- Experience with **React.js and Next.js**
- Basic to intermediate knowledge of **TypeScript**
- Basic knowledge of **responsive design** and cross-browser compatibility
- **Familiarity with common UI libraries or component systems** (e.g. Material UI, Ant Design, ShadCN, or similar) **is a plus**

Integration & Development Practices

- Ability to integrate third-party libraries and services
- Comfortable researching, reading documentation, and implementing APIs
- Familiarity with **Git** and collaborative development workflows
- Basic understanding of client-server architecture

Plus to Have

- Experience with **Umbraco CMS** is a strong plus
- Experience with **WordPress / WooCommerce** (with coding customization) and/or **Shopify**, including theme customization or app integration, is a plus.

Personal Qualities & Learning Mindset

Exposure to legacy systems is a plus, but a strong willingness to learn and adapt is required.

- Interest in working with both existing codebases and new development
- Willingness to refactor and improve existing code incrementally under guidance
- Attention to detail and commitment to code quality
- Ability to work independently as well as part of a team
- Good organizational and time-management skills
- Strong communication skills
- Dynamic, motivated, and eager to learn

Languages

- Fluent English (spoken and written)
- Additional European language is a plus

Working Hours

- Monday to Friday, 8:30 am – 5:00 pm.

Important Notice

This vacant position is strictly for Lebanese applicants.
